LIFE INSURANCE.

ÆTNA

LIFE INSURANCE COMPANY,

Hon. E. A. BULKELEY, President,
AUSTIN DUNHAM, Vice "
T. O. ENDERS, Secretary.
H. W. St JOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Polices Insured in '67,	15,251
Am'nt Insured, nearly	$45,000,000
Policies Average "	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Polices at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies.

Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies issued at the rates published herewith, will participate in the surplus from the date of issue,

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. POUCH.....President.
ABRAM D. POLHEMUS.....Vice President.
WILLIAM M. COLE.....Secretary.
D. F. FACKLER.....Consulting Actuary.
DANIEL AYRES, M. D., LL.D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly studies the entertainment of the officers to make it the most LIBERAL Life Insurance Company in the United States, are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS OF TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A loan of one-fourth of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all companies which accommodate their insured with same.

5th. Dividends annually (after second year) in cash. Dividends are invited on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. F. Fackler, now Actuary of this Company, and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

6th. Promptness in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, MARCH 12, 1869.

A SPLIT ANTICIPATED.

The knowing ones are prophesying a split among the Radicals in Congress. We cannot, as a friend of our country and a lover of peace, sincerely say that, we would rejoice in such an event. If we thought violent and eternal disagreement would really result in good to all, we would be glad, indeed, to see them pulling each other by the ears—we mean political ears. But doubting this, we would prefer to see Grant have a fair trial, and if he exhibit that incompetency and arrogance that have been foretold by some, and, we must confess, that have been already slightly foreshadowed in his acts, then we are for giving him a square out fight—*fair*, open and determined, and we will do our part to obtain all the recruits from his ranks we can.

Let us not be misunderstood. We are no Radical, in any sense whatever. Our education, temper and taste combine to make us conservative. We are for standing always by the old landmarks—the true principles of just government as laid down in the Constitution of the United States. We are not any great admirer of the Mum President. We never have been. We were not when Lee, the immortal, was whipping him from day to day, slaying more of his men in the campaign than the great Confederate Captain commanded. We were no admirer of his in his disgraceful contest with Andrew Johnson.

We were not his admirer, when he forgot his Democratic antecedents, and affiliated with the black Republicans to get office. We are not now his admirer, in this the hour of his grandest triumph, when he is gathering about him, his high military officials, and converting the President's mansion into a soldiers' barracks. But we would do our President justice. We would accord him every thing that fairness and propriety could demand. We are, therefore, for "waiting," and we are for "watchfulness" with Argus eyes at the same time. Lee watched him for nearly a twelve month. The American people must watch him for four years. If he prove faithful to the great trusts committed to his charge, then let "recruited honors,"—to use a fine phrase of Junius,—"gather around his name." If he prove recreant to God, to his country, to himself, (*vide* Wolsey's charge to Cromwell,) then a nation's malediction will descend upon his head.

We do trust, however, that he will make a good President. Our poor, afflicted South surely demands such an officer. Her wants are great—her necessities appalling. "Let us have peace!"

But let us keep our eyes fastened upon our Chief Magistrate. All of his measures ought to be freely and frankly canvassed, but not in a captious or carping way. Good, honest, manly criticism will do good to any public officer. If he know that he is constantly watched by discriminating and intelligent minds, and that he may expect to meet with keen and open attack, if he tamper with a people's rights and prosperity, it will curb his ambition, and check to some extent, at least, his wild schemes of personal aggrandizement. The fear of strong opposition has a salutary influence on all sane men.

But will there be a split among Grant's friends. The Washington *Republican* (a Grant paper) says there are evident signs of a rupture,—that "determined efforts" will be exerted against the President by a "powerful combination of shrewd and forcible men." It prophesies that Grant will be overwhelmed unless he gain a victory over them (his Republican opposers) at the commencement of his new career. What will be the issue, if a fight is made up, human ken may not divine. That Grant will show stubborn pluck, all who know any thing of his character, may readily believe. The Richmond *Whig* (a half and half Grant paper) says that, "General Grant has been the subject of offensive distrust, on the part of his political friends, for two months; and has been treated with less forbearance and charity by the party that elected him than ever before fell to the lot of a President. Before he ever uttered a word to justify a suspicion, he had it flaunted in his face that the new Congress would have a two-thirds Radical majority, just as the old, and that, consequently, he would be as powerless as Johnson."

This far Grant has failed in two attempts: 1. In having the tenure of office bill repealed. 2. In not succeeding in retaining Stewart as his Secretary of the Treasury, by getting the obnoxious act of 1792 repealed by Congress. What development will be made next, as the wheel of fortune turns, time only will reveal. "Let us watch and wait."

"THE HANDS."

The "hands," we neglected to chronicle, were again demoralized on the occasion of the advent of Robinson's Circus. They adjourned from one morning to the next, omitting the night session, and in the face of their own rule. It seems it was impossible for them to resist the temptation.—Cost the State what it might, they were forced to patronize the *ring* and to hear the last explosion of the clown. By the way, is this *ring* the only one they attend?

VIRGINIA RADICAL NOMINATIONS.

The following are the nominations of the Radical Convention recently assembled in Petersburg, for State Offices:

For Governor, H. H. Wells; for Lieutenant-Governor, Dr. J. D. Harris, negro; for Attorney General, Thomas H. Bowden; for Congressman at large, A. M. Crane.

OUR CONDITION AS PORTRAYED BY A RADICAL DAUBER.

People of North Carolina, we have time and again warned you of the path of destruction in which you were being carried by the Radicals now in power, we have told you of the ruin and woe that awaited our people from the nostrums administered by the political quacks now physicing the body politic. We have sounded repeatedly the note of alarm, and begged you to watch your public servants, believing that they would entail upon you innumerable ills by their wild course of extravagance and corruption.

We urge you to read carefully the following touching jeremiad. Behold! how the *Standard* man weeps. Heretofore he has sounded on his fellows in their mad career against the best interests of our people, and now that terrible ruin and bankruptcy stare you in the face, he indulges freely in this dolorous strain. Hear him as he snivels about your condition, when he has done his utmost to bring swift ruin upon you. No doubt, as he read his lachrymose platitudes, he farely sniggered as he remembered the easy credulity of the "dear people."

"It is true your capitol is not now burning—it is true your capitol is not a heap of smouldering ruins—but a more dreadful cry comes up from the people every day.—From every part of the State comes up a wail of distress. Our homes are sold and we are beggars. All over the State are heard shrieks of agony in fear of high taxes. Our poor houses are crowded and our jails overflowing with criminals. The cry of woe, murder and starvation and distress are heard all around us. It is a great while since we first heard this bitter "cry." The *Sentinel* at least two years ago, told the people of all this. The *Standard* then, lost in the pursuit of victory, and utterly blind to the woeful results that were certain to follow its teachings, could hear no "cry of woe, murder and starvation and distress" that rung out upon the air and startled every good man in the State. But the *Standard* hears at last. Even here, in our tearful neighbor, the gaty, rags squalid want besiege us"—even here, in the capital of the State, our "representatives of the people are overwhelmed with the cries of distress from every district."

Where then is the *relief* from all these great ills? What true friend of the people will provide a panacea for the cure of the serious wounds of the State? What do the friends of the *Standard* now purpose? The distress of the people is too deep, the cry of agony is too sharp and heart-piercing, to be relieved by sentimentalism and balderdash and rant. Stop your expenditures, cease to throw away the people's money, repeal your obnoxious and baneful measures, do away with the scores of "fat offices" created by you for the benefit of "the truly loil," and go home to your families, and *stay there*. In this way, you may atone for some of your past political sins, and avert some of the long cherished wrath of an outraged, indignant and oppressed people.

EDITORIAL NOTES.

1. Mr. Motley, the author of two excellent histories, and one of our trio of able American historians, says, "There is no such thing as human history." He says all history is but "a confused babble, hieroglyphics of which the key is lost." If this is not true as to all history, it is certainly so as to those "so-called" histories which have been written by Northern men relative to the late war. They are certainly "a confused babble"—unredeemed by scarcely one redeeming trait. And let us say it, Pollard's poor, contemptible efforts are but little better, if any. They are utterly unreliable, though aspiring to some literary excellence.

2. Wendell Phillips in a recent lecture on "Street Life in London," denies that Americans are better educated than Europeans. We did not know that any one claimed this. It is true, probably, that the ratio of Americans who can read is greater than that of Europeans, and yet there are comparatively but few educated Americans, especially if a thorough standard be appealed to. Phillips says, that in London, it happens often that "the porter who carries your trunk can speak three or four languages."

3. According to Mrs. Stanton—one of the "strong minded"—the famous "Soothing Syrup" for babies is not prepared by some charming Mrs. Winslow, young in years, and a widow; nor by "a humane old lady," but by "an ignorant man in whiskers, broadcloth, and boots." He dresses well, doubtless. He does more: he cheats the country, Yankee like, with his nostrums.—Mrs. Stanton you may walk into the gentleman, for he has no friends this way.

Legislature of North Carolina.

SENATE.

Mr. Brogden, from the Committee on Finance, reported back, favorably, bill allowing Commissioners of Johnston County to levy a special tax.

Galloway, colored, gave notice of a bill to incorporate the Cooper Institution of Wilmington.

Leave of absence was granted Mr. Shoffner.

Mr. Reopan introduced a bill, amending the charter of Bath, in the county of Beaufort.

Hyman, colored, introduced a bill to prevent the sacrifice of property, under execution sales.

Mr. Brogden: A bill to authorize the Commissioners of Wayne to levy a special tax.

Mr. Shoffner: A bill to authorize certain parties to build a bridge across Haw River.

Mr. Robbins: A bill to amend section 403, Code of Civil Procedure, title 17.

Eppes, colored: A bill to charter Rail road from Scotland Neck to Weldon.

Mr. Smith: A bill to incorporate the Yadkin River Bridge Company.

Bill concerning Townships (its provisions heretofore given) was taken up, and read 2nd time.

Mr. Cook moved to refer to the Committee on Townships.

Mr. Sweet favored immediate action.—The system of postponement did more to retard legislation than any thing else.

Mr. Cook disclaimed any intention to retard, if the Senator from Craven meant his remarks for Mr. C.

Mr. Sweet disclaimed anything of the kind. His remarks applied no more to the Senator from Johnston than to other Senators.

Messrs. Graham, Barrow, Welker, and Robbins, were heard as to the merits of the bill, relative to the government of Townships.

Mr. Cook's motion was withdrawn, and the bill considered at length, eliciting a protracted debate.

Mr. Graham proposed a substitute for the 4th section of the bill, providing for elections in Townships on the 1st Tuesday in August, 1869. Adopted.

The 9th section was amended, on motion of Mr. Love, fixing Constable's bond at $500, and not more than $3,000.

The 10th section, giving the Trustees of Townships power to hold real estate, and to erect Township houses, to levy taxes, &c., to build said Township houses, was amended, by Mr. Graham, so as to tax *all* property in the Township; and further amended by Mr. Love, restricting the land to be purchased for the use of the Townships, to one acre.

Section 13, defining the powers of the Trustees, was amended by taking away the authority to excuse any person from working on the highways, on motion of Mr. Welker.

Some other amendments were made to the bill. The 21st section was stricken out, and pending the motion to strike out section 22, the Senate adjourned.

HOUSE OF REPRESENTATIVES.

FRIDAY, March 12, 1869.

House called to order at the usual hour. Prayer by the Rev. Mr. Hudson, of the Methodist Church, of the city.

Journal of yesterday read and approved.

Leave of absence was granted to Messrs. Kinney, Gunter, Proctor and Ellis.

Mr. Whitley was allowed to record his vote in the affirmative upon the resolution adopting the 15th amendment.

Mr. Dixon from the Committee on Claims, reported favorably upon the resolution in favor of A. L. Partin, of Macon county.

By Mr. Moring: A bill to incorporate Holly Springs Lodge of A. Y. M. Referred.

By Mr. Pou: A bill abolishing the office of State Geologist. Referred.

By the same: A bill repealing the law giving Sheriffs and Constables mileage in certain cases. Referred.

Mr. Sinclair moved to suspend the rules and take up his resolution expressing confidence in President Grant and requesting our Representatives in Congress to vote for a repeal of the "tenure of office act."

After considerable debate the motion to suspend the rules was put to a vote and no quorum voted.

Mr. Sinclair renewed his motion and called for the yeas and nays. The call being sustained, the House adopted the motion by a vote of yeas 55, nays 27.

The Clerk read the resolution, when, Mr. Estes offered the following substitute: That our Senators in Congress be requested to vote for the repeal of the law known as "tenure of office act."

Resolved further that each of our Senators in Congress be furnished by the Governor with a copy of the foregoing resolution.

After a somewhat lengthy debate the substitute was put to a vote and lost.

Mr. Durham moved to strike out the preamble of the original resolution.

Upon the adoption of that motion the yeas and nays were called and the House rejected the motion by a vote of yeas 37, nays 42.

The orginal motion after being amended was then adopted.

SPECIAL ORDER.

The House bill for the protection of mechanics and other laborers.

The bill was read, when, on motion of J. H. Harris, of Wake, colored, it was laid on the table.

Senate bill for the protection of mechanics and other laborers was taken up and made special order for Monday next, 11 o'clock.

On motion, the consideration of the bill to prevent the distillation was postponed until Friday next at 11 o'clock.

On motion of Mr. Seymour, the rules were suspended and the bill transferring cases from the docket of late criminal Court of Newbern to the Superior Court, was taken up and passed its several readings.

The special order for this hour was announced, to-wit:

The bill suspending the Code of Civil Procedure in certain cases, reported by the Special Committee on Relief as a substitute for the bill to regulate proceedings in certain cases.

The question recurred upon Mr. Malone's substitute. (The substitute is the bill as reported by the Committee, with his proviso, published yesterday, annexed to it.)

Mr. Bowman moved to make section 12 section 13, and insert in lieu of section 12 the words "the provisions of this act shall not apply to proceedings by attachments." Agreed to.

Mr. Durham moved the following as an additional section, to be known as section 14, viz: "That nothing in this act shall operate to repeal the provisions of the Code of Civil Procedure, which allows defendants to be arrested and held to trial in certain cases." Adopted.

Mr. Durham moved to amend by striking out, in section 6, all after the word "filed" in line 3 down to the word "the" in line 8.

Mr. Durham said he offered the amendment in order to prevent defendants postponing trials governing of actions *ex delicto* and *ex contractu* since May, 1865, as well as debts hereafter to be contracted, &c.

Mr. Moore, of Chowan, said every resident of the State was entitled to a homestead and personal property exemption and the House had recently passed, by an unanimous vote, an act to carry into effect those beneficent provisions of the Constitution, but it had not yet passed the Senate. In the meantime the Justices of the Peace and the Courts going on rendering judgements for thousands and thousands of dollars and unless they arrested all or nearly all of the land in the State will be sold before the people can have and take their rights under the homestead law, &c.

The next question is, can we stop the collection of old debts and new ones above, if this discrimination be made? He, for one, and he believed every one of the Committee, was in favor of doing so; but as the Constitution abolishes all distinctions between the different forms of action, reducing them all to a civil action, grave doubts are entertained whether it is competent for this House to make any such distinctions as to form or as to the time when the act was committed, or as to its nature, whether a contract or tort.

Mr. Durham replied at some length, reiterating his former positions in the matter, and concluded by again stating that he would support a bill giving relief as to old debts, but thought this bill, without his amendment restricting its operations, too sweeping in its provisions.

Mr. Seymour spoke in favor of the amendment.

Mr. Pou objected to it.

Mr. Gatling took the floor and said: The gentleman from Johnston (Mr. Pou) has alone stated the proposition with entire accuracy. He narrows it into the mere nature of relieving relief to a class of debtors, whose contracts bear date before 1865, and who form only a small proportion of the people of the State, or to close the Courts at once to *every species of redress whatever the wrong may be*. In legislating they should consider the greatest good to the greatest number. They had only to decide in the present case which horn of the dilemma will subserve this purpose. The question is shall we extend what appeared to him to be a very unequal and very doubtful relief to small class of men (perhaps ¼ part of our population) at the expense of the business of the whole State. This is the only thing to be decided. He doubted the ability of the House to afford the relief demanded in the premises because any relief which could either be adequate or satisfactory must of a necessity violate that clause of the Constitution, which forbids a State to impair the obligation of contracts. He doubted the policy of all stay laws. They impeded and stagnated business and go far towards repelling the tide of immigration, the influx of capital which so naturally seek our State. On this ground, if no other reason, he would hesitate to vote for the bill or its amendments.

Messrs. Parker and Foster opposed the whole measure.

Messrs. Hodnett and Mayo, colored, and Ingram favored the bill.

Pending any definite action, the House adjourned until 7½ o'clock, this evening.

MR. TURNER:—It may interest many of the good people of this Commonwealth, sometimes to hear from Trinity. This is now a world in tolerably large miniature, a tolerably fair State representation, and no mean promise of future power. The great annual event has just passed, viz: the election of Marshall and Managers. There is always intense excitement, but no thing more. If the ruling power here is a silken wand in appearance, whoever attempts to break it will find it a rod of iron. There is not much appearance of government; still very few ever think of attempting the violation of College law. The Societies are vigilent, active, and have great rivalry, but there is no such thing as quarreling. No one here imbibes, loats, or makes a night of it. Hence in our annual election, we had a grand time without the accompaniment of broken heads, suspensions and expulsions. The candidates for Marshall and Manager must always come from the Junior Class, and the present Junior is thought to represent more property, to have more talent, more ambition and more comeliness to look upon, than can be found in any other twelve young gentlemen this side of Nova Scotia. Hence defeat by any one was not to be endured, and yet some two must be defeated. If there had been any outsiders, the contest would have been interesting; but there are no outsiders. Every body in the town is enlisted. The contest was close:

"Long in even scale, the battle hung"

but J. D. Pemberton of Richmond, was elected Chief Marshal, and J. T. Harris of High Point, Chief Manager. They will make splendid officers. If you, Mr. Editor, will come to Commencement, they will bestow upon you such elegant courtesy, that both you and your friends will think you ought to be in the Senate of the United States. Next Commencement will have rare attractions; we have a fine Senior Class, shall have a host of the most beautiful and accomplished ladies in the State, Bishop Wightman preaches the Sermon, and it is said Gen. Wade Hampton will deliver the Address. Everything here is looking up; new houses are going up and a general spirit of improvement is the order of the day.

AMICUS OMNIBUS.

STATE NEWS.

Henry E. Clifton, now in the county jail of Craven, gives notice through the Newbern *Times*, that he has rented stall 417 in the Market of Union Point. He expects to carry on the "meat business in all its branches" upon "the expiration of his term of imprisonment which is *twenty* years from January 25th, 1869." He will do.

Mr. Jas. R. Thigpen proposes to publish soon a "Monthly Agricultural Journal" at Tarboro, N. C., to be called *The Reconstructed Farmer*. It is to contain 32 pages, and to be published in the best style of the art. Price $2.00. Messrs. Charles and Biggs publishers.

A silver goblet is to be presented to the most efficient policeman of Wilmington.—The *Star* thinks it will do mischief by inducing presumptuous officers to arrest without justice.

The *Eastern Intelligencer*, published in Washington, N. C., states that many improvements, in the shape of new buildings, are now in projection in that town.

DYING.—Capt. Wooten informs us that Mr Reuben King, the victim of the late Lumberton outrage, was reported to be dying when the train passed Lumberton yesterday. *Wil. Journal.*

RECONSTRUCTION.—We publish, to show the men whom *Reconstruction* has placed in office, the following, which is a correct copy of the original:

"Sheriffs office

I serve no serve papers without my fees in advance fees and Millage on the enclosed Samons is 1,90 cts

yours Truly

Sheriff.

To ——."

This extraordinary note was received by an unpaimable person of our city, who had sent a "serve" paper to the brilliant official, whose name we forbear to mention, and who enjoys the exalted position of Sheriff of an adjacent county.—*Wil. Star.*

For the Sentinel.

MR. EDITOR:—Since the decision of the Supreme Court, upon the stay law, almost every man in this section of the State, who has old debts due him, has brought suit, and under the workings of the new code, it will be but a few days before the property of many good men will be under the hammer, and, in the absence of money, many grievous hardships and losses will have to be borne. The indebted people, generally, had paid, or were ready to pay, the tenth of their liabilities, and one tenth is about all they are able to pay, at one time; but now, under the changed order of things, creditors are demanding payments for their whole debts.

It is the opinion of all fair-minded men here that the time, according to the present practice of acquiring judgment, is too short. The old credit system is so nearly set aside that there are scarcely any new debts in the country, and as the legislature established the present system of pleading, it is certainly competent to change it. Therefore, why could not the Legislature so change the form of pleading as to give more time? It would be no doubt unconstitutional to make a change applying only to old debts, but since there are few other sort, why not make a general law, and give more time? Such a thing would be a relief, and it is thought a benefit to the country. A.

Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cases are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—
For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.
For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.
For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.
For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.
As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.
Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.
Singers and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

SYNOPSIS OF STATEMENT FOR 1868, OF THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY.

Income from Premiums,	$7 161,324 11
Income from Interest,	1,594,905 68
Total Income for the year,	8,756,229 79
Losses paid,	1 221,333 00
Dividends paid,	926,794 00
Total Losses paid to date,	6,080,282 00
Total Dividends paid to date,	3,197,548 00

It will be seen from the above that the INCOME FROM INTEREST ALONE greatly exceeds the losses, and that the TOTAL INCOME FOR ONE YEAR is more than the TOTAL LOSSES PAID TO DATE.
The Assets of the Company are now over TWENTY-THREE MILLIONS OF DOLLARS and with its IMMENSE INCOME, offers greater inducements to those insuring than any other Company in this country. In addition to the part-credit system of premiums with dividends annually payable after four years, it issues Policies upon a reduced all-cash premium, with immediate credit participate. It can be plainly seen that the Connecticut Mutual Life has been doing a safe and increasing business for the last twenty-two years. It does not deem it necessary to make grand promises of what they INTEND doing, but will insure persons on any plan most desirable, and it is also all its policies non-forfeitable, for a stated amount, after two or three payments. Also remember, this Company has $12,500 Assets securely invested, for every $100 of its Liabilities.

ERRATA.—On yesterday, in the hurry of getting out, for the first time, our *evening paper*, three or four typographical errors, of an annoying character occurred.

OUR PAPER.—The *Sentinel* has never had a wider circulation than it now has. It is sustained by the people, and does not depend upon government "pap" for its existence. It will have attained its "shady side" whenever it works off only 26 quires of paper.

THE LACTOMETER.—We were yesterday shown by Mr. Blair, of the Yarborough House, a very simple and ingenious instrument called the Lactometer, to be used in ascertaining the purity of milk. By this instrument, the precise amount of water contained in milk, may be ascertained. The price for one is $1.00.

NOTWORTHY.—Robbins, colored of the House, returned to our Clerk yesterday, one dollar, it being the sum that was overpaid through mistake in a settlement with him. The act is highly creditable to him.

LATEST FROM "THE HILL."

A friend writes, "we have only *three* students and they are all *residents* of the Hill." There are four professors, the President included. Will not Judge Pearson, or Senator Lassiter, recall one of their sons from a Northern College, and send him to our own University, so that each Professor may have a class?

THE TENURE-OF-OFFICE BILL.

We incline to the opinion that Grant will finally triumph in his contest with Sumner and kidney, in his demand for the repeal of the Presidential strait-jacket. On Wednesday, in the House, the Tenure-of-Office act was repealed by a vote of 143 yeas to 19 nays. This exhibits great strength for Grant in that branch of Congress. We think it highly probable that the Senate will be as obliging, and the mum President will go on his way rejoicing without curb or brake upon him.

CABINET CHANGES.

The telegraph yesterday informed us of several changes that had been made in the Cabinet. Washburne, first appointed Secretary of State, goes to London in place of Reverdy Johnson. "What a fall was there my countrymen!" Hamilton Fish, an old line Whig, for a long time Senator from New York, and a man of considerable ability and experience, is to be his successor. We like the change. Boutwell, of Massachusetts, is to be Secretary of the Treasury, in place of A. T. Stewart, who was banned by the act of 1792. We do not like the substitute. He is an intense Radical, of the Massachusetts type—the worst in the world—was one of the managers in the great Impeachment trial, and does not possess, as we believe, one-half the financial capacity of Stewart. Gen. Rawlings, formerly a member of Grant's military family, is appointed Secretary of War. He is, we presume, a man of mediocre talents, and will, no doubt, be pliant enough in the hands of his master.

ANOTHER GAIN.

The election in New Hamshire, for State officers and Representatives, held two days ago, like that of New York, shows a turn in the popular tide that lifted Grant into office. The Republicans, it is true, carry the State, as all expected, but by a majority but little more than half that by which Grant carried the State in the Presidential election. The end is not yet.

MURDER AT NEWPORT.—A colored man named Jones, had an altercation with a boy a few days ago, on the plantation of David S. Jones, about four miles from Newport, on Newport river, and becoming infuriated, split the boy's head open with an axe, killing him almost instantly.—*Newbern Times.*

110 YEARS OLD.—On Thursday night, in our city, died Phillis Langdon, an old colored woman who had, it was estimated reached the unusual age of *one hundred and ten years*. She was married in 1776, on the same day that the British entered Wilmington, and continued to live with her husband until his death.—*Wil. Star.*

There is a good deal of feeling in this city in regard to the new pilotage bill now before the Senate, and the universal expression is one of surprise and regret that such a proposition should be for a moment considered. It is unjust, and is jurious to the prosperity of the State.—*Newbern Times.*

ARRESTED.—Messrs. Henry Messer and Acton McCracken, two worthy citizens of Haywood county, were arrested by the Revenue authorities, a day or two ago, and brought hither, on suspicion of evading the Revenue laws.—*Asheville News.*

Torture their anxious souls; he smiled in thought;
He sat like a fellow holding four kings and an ace.
Calm and serene.

A Western editor thinks the poem of Enoch Ardan has encouraged hundreds of dead husbands to return and annoy their families, who would otherwise have kept away. The Enoch Arden in real life, he says, is usually a scallawag, and comes home ragged, dirty and drunk.

Envelopes are now made in England with the mucilage on the lower part of the envelope instead of the flap. On moistening the edge of the flap, as usual, and pressing it down upon the gummed surface below a very thorough adhesion takes place, without the objection of getting the taste of the gum in the mouth, or removing a part of it by the tongue.

Recent experiments at Shoeburyness have completely unsettled all pre-existent ideas on the subject of iron defences. The plate armour of ships of war which had hitherto resisted the heaviest projectile was easily penetrated, and the targets were completely riddled by the Palliser bolt.

The favorite horse of Rev. Dr. Channing recently died at Portsmouth, Rhode Island, aged forty-nine years. At the decease of the Doctor a person was specially charged to take good care of him as long as he might live. This person died, and another was selected to see that the Doctor's wishes were carried out.

The new Methodist Church at Washington City, D. C., was dedicated on Sunday the 28 of February. The Dedicatory services were conducted by Bishop Simpson, assisted by Rev. W. W. Pusshon of England and Rev. Dr. Eddy. About $15,000 was collected to be applied towards the indebtedness of the Church.

At Leigh Street church Richmond on Sunday last, Rev. Mr. Dickinson baptised fourteen persons. At Broad Street Baptist church, Rev. Dr. Burrows baptised eight. At Main Street Baptist church, Rev. Mr. Chambliss baptised thirteen. At Grace Street, Rev. Dr. Jeter immersed eleven.—Dr. Chambliss, at evening communion, extended the hand of ecclesiastical fellowship to about fifty new members of his church.

The tea plant is in successful cultivation some ten miles from Knoxville, on the farm of Capt. James Campbell, where it has been growing for about ten years. It is said that East Tennessee tea drinkers can easily raise their own tea with very little cost or trouble. The plant is a deep evergreen shrub, and grows about five feet high. It is hardy and needs no protection from frost. It bears an abundant crop, with beautiful fragrant flowers in October. The following season it matures a seed, somewhat resembling the seed of our native hazel, and grows up readily. The vigor and hardiness of this plant, and its adaptation to the climate, have been tested. The tea produced from the leaves of the plant very much resembles in flavor the tea from Young Hyson plant.

THE POWER OF THE EAST.—The East has not only triumphed in legislation concerning all its great interests, but in the Republican House caucus it has secured the nomination for the Speakership, the Sergeant-at-arms, the Clerk, and the Doorkeeper. The great agricultural South and West get nothing. With the Speaker to form committees, and a Secretary of Treasury devoted to Eastern interests—as manufacturers, bondholders, and national banks—the West and South are sadly off at the start. The battle of the right is half lost already.—*Nat. Intel.*

THE LARGEST ON RECORD.—One ear of Underhill's "Corr King Williams corn" had twenty four rows, ten inches long seven and a half inches in circumference, and had 1,560 grains. Another had twenty-four rows, eight inches long, eight and a half in circumference and had 1,080 grains.—Weight, two and a half pounds; thirteen barrels and two bushels to the acre.—*Fredericksburg News.*

"Have you much of a family, Mr. Treacles?" asked Mrs. Pinchbeck, who proposed to made her friend a visit. "Ry no means, Mrs. P., only a few trifles running about the house—say about eleven of 'em." "Oh, eleven—only eleven. Pray what may these trifles be?" "Beg pardon—quite forgot to mention—really I'm so thoughtless—they are children." Mrs. P. thinks she won't make her visit at present. She don't like trifles, at least eleven of them in a single nest.

The man who paid his attention to the ladies did not take a receipt, and was accordingly called upon for a second instalment. He discounted without hesitation, and even appeared to take pleasure in it.

CITY ELECTION—FIFTY THOUSAND DOLLARS TO BE BORROWED.

MR. EDITOR.—Mayor Harrison has announced that on the 8th day of April next, the voters of the city of Raleigh will be called upon to express their approval or disapproval of the question, whether the city of Raleigh shall borrow *fifty thousand dollars*, by the issue and sale of bonds to that amount, bearing not more than 8 per cent. interest, and running twenty years.

So far, the question seems to have excited but little interest. Our people seem to be so engrossed in the present care to make a dollar, and have become so indifferent to the wide spread extravagance and corruption of those in power that the proposition to borrow $50,000 by the city of Raleigh, to be paid in twenty years, excites no concern. While the bill authorizing it was passing through the General Assembly, no one vitally interested in paying the taxes of the city, thought enough of it, to make an enquiry or to call the attention of the General Assembly to the necessity of criticising the proposition.

The bill says, that the object of borrowing the $50,000 is to pay the indebtedness of the city and to meet the expense of contemplated improvements. What is the indebtedness of the city and what for? Will the Mayor or the Board of Commissioners gratify the people with an official statement of the indebtedness and how it occurred? It has been stated that one or more of the Treasurers of the city, could never be made to settle their accounts with their successors. Have their official bonds been sued or are they worthless? The people want to know the extent of the indebtedness and the character and probable cost of the contemplated improvements. If the indebtedness of the city can be paid and the necessary improvements to be made, can be done with $30,000 or $35,000 why borrow $50,000?

Is the present Board a body of men, of such experience and intelligence in improving a city, that the people are willing to leave the appropriation of so large a sum as $50,000 to that object to such men? Are they men of such moral worth, such an amount of responsibility, as that they can be safely trusted with it? What amount of city taxes does the entire Board of Commissioners pay annually? Do they pay $100 per year into the City Treasury, exclusive of the tax upon the sale of liquors? How much city property does the Board own?—And is it just, is it genteel or modest, to ask such a sum of $50,000 to be placed at their disposal by the tax payers of the City? The sale of these bonds, together with the taxes soon to be collected, will throw an unusual amount of money into the Treasurer's hands. What is the amount of bond given by the Treasurer? What is its responsibility? I impute no wrong motives to any one, nor make any derogatory insinuation against any member of the Board, but these are times, when people do not trust their goods to every one. These are cash times. No one can borrow a dollar from a bank or a broker, except on good security. No one trusts anything to the integrity or honor of men in business transactions. Why then should it be a hardship to require indemnity, ample security from men who have in custody the public funds?

I think it necessary that the credit of the city should be maintained, and I am inclined to the opinion that to pay off the city debt and rebuild the Market House, renders it necessary that a loan by the sale of bonds should be effected. But prudence requires that the amount borrowed should be limited to the sum that is really necessary.

My object is simply to awaken attention and to excite the necessary discussion in order that the people may be fully advised upon the merits of the question. I desire also to call back the minds of the people to the necessity of properly scrutinizing the conduct of all public officers and holding them to a just responsibility.

THE UNIVERSITY.

CHAPEL HILL, March 5, 1869.

MR. EDITOR:—Many of our citizens wrote asking you to forbear criticism on the new Professors of the University. You did so, for a short time. Now the cake is all dough,—for, as you said, if Radicals will not allow Conservatives and Democrats to work on the Railroads belonging to the State,—they will not allow their children to stay in peace at the University.

We have had an illustration of it. One of the three new students, a son of Mr. Gaston Wilder, of Wake, left on Monday. He is an intelligent lad. When he heard that Professor Brewer, upon his first arrival on the Hill, had put up with Jordan Wever, a negro, whom you know very well—the identical Jordan that you defended in Court for violating the law in selling whiskey to students—he determined to leave the Hill at once. Jordan is as black in the face as Radicalism in the heart.

Col. Guthrie, once your friend, and you should be ashamed that you ever had such, called at the boarding house of this lad to know if he intended to enter College. He said not. Why? said the Radical Colonel. The lad replied he could not recite to Prof. Brewer, who had such proclivities for the negro. The Colonel became enraged and abused the lad, declaring his son should not go to school with such a accesh Democrat, for in two weeks he would have every boy in school a Democrat.

You know all about the Colonel, but your readers do not. In 1865 or 6, he had a son at College, he declared if the Faculty did not dismiss all the League negroes who waited on the College and employ negroes not of the League, he would take his son from College. I heard you tell him on the stump about it, and that he had said the negroes had no bones in their noses, were not human, and had no souls. Such is this guardian of the University.

Yours. H.

This favorite brand of Pure London Cordial Gin, has stood the test of time, imitation, piracy, high tariffs and unfair competition, and still enjoys a constantly increasing sale; showing that true merit does not always go unappreciated.

CHARLES' LONDON CORDIAL GIN

is offered to the public as a perfectly reliable specific in all cases of DISEASED BLADDER and KIDNEYS. It acts directly on these organs, with a directness and speediness which render it invaluable to persons suffering from GRAVEL, DIABETES INFLAMED BLADDER, scanty and highly colored urine, and in all cases where, from whatever cause, a healthful diuretic is required.

Ladies subject to painful menstruation, can by the use of Cordial Gin a few days previous to, and during illness, obtain great relief. In such instances it should be taken with sugar and warm water.

As a tonic and beverage this Gin is unequaled, as it possesses none of the headache properties to be found in those poisons, now so frequently sold under the names of Gin, Brandy, Whiskey, &c.

By direction of the President so much of general orders No. 6, of February 18th. 1869, from the Adjutant General's office as relates to the movement of infantry regiments is suspended until further orders.

CONGRESSIONAL.

WASHINGTON, March 11.

FROM WASHINGTON.

WASHINGTON, March 12, M.

Supervisor Creary, of Louisiana Revenue District, has not resigned. His removal is improbable. He departs in a few days, with instructions to push vigorously prosecutions already commenced, and to enforce the law rigidly.

Yesterday's nominations have caused a dispersion of Louisiana lobbyists.

Gen. Grant is reported to have said that legislation is exhausted regarding Mississippi. No more legislation is required in her case. He wants Virginia and Louisiana let alone until after the Constitutional election. He deprecates interference with Georgia.

The Mississippi delegation now numbers twenty-seven, no three of whom accord.

LIVE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

This Company, National in its character, offers, by reason of its large capital, low rates of Premium, and *New Tables*, the most desirable means of insuring life yet presented to the public.

The rates of premium being largely reduced, are made as favorable to the insurer as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-holder.

Several new and attractive tables are now presented, which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the par of his policy. In the latter the Company agrees to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.

The organization of this Company on the LOW RATE, CASH PLAN, with new features and unequaled security, has evoked the most remarkable opposition from older and rival Companies. By means, fair and unfair, they have sought to injure the new system, and have attacked it with a degree of virulence unknown in the history of Life Insurance.

Not satisfied with the immense sums of money paid Insurance and other journals, to try and check the rapid progress of the National an unsuccessful motion was made in Congress to repeal its charter; all of which but accelerated its speed far more than the largest policies issued has been to members of Congress, whose attention has been thus attracted to its unsurpassed advantages. In the face of this opposition, the work of the Company has gone steadily forward, and it is with no little satisfaction that the GENERAL AGENTS are able to state that the business to date is far in advance of anything hitherto accomplished.

In six Months 3,000 Policies have Been Issued.

INSURING, IN ROUND NUMBERS,

$10,000,000.

The assurance of persons contemplating insuring their lives, or increasing the amount of insurance they already have is called to the special advantages offered by the National Life Insurance Co.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

Full and correct market and financial reports will be given.

NEW METHOD OF WASHING CLOTHES

WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any stove or range, in any boiler, and the low price of the Washer places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the meshes with astonishing rapidity, cleansing all sediment, from the minutest fibre to the heaviest. For thickness it is invaluable, as it does not fill them as do the old processes of pounding and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of steaming suds are forced through the boiler, thoroughly cleansing and whitening the clothes WITHOUT LABOR OR RUBBING. A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be repaid in the saving of TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so sweetly to common sense, that we have deemed it unnecessary to accompany the introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOGUE & GIBSON'S, and see its wonderful operations. We have the exclusive right to sell and manufacture in the state.

What a ricky set of individuals!

Now just let ME tell you, that there is some humbug than poetry in all this. Don't every man, woman and child know that it is humbug enough to be seen even with one eye shut? to let them talk, puff and blow, but STOP, LOOK OUT! HANDS OFF! and show your good judgment by
